Subject: date of borrow pit CAD, etc.

Hi Jay and Paul - I'm putting some posters together for the upcoming proposed Superfund CAD cell (ESD) and was hoping one of you would have the dates the borrow pit was filled...

Also, would it be too much to ask to have someone prepare a one or two paragraph summary of the three CAD cells completed to date? Summary level only - e.g., dates of excavation and filling, areas dredged for placement into each CAD cell, dates capped, WQ monitoring summary, etc. I'm thinking it would make sense to have such a summary in EPA's upcoming ESD, since we'll be pointing to the fact that its been done for navigational dredging...

Thanks - Dave
